Writing

I would like to see "All quiet in West front" made into a film.

Well, from the very start I would like to draw your attention to the fact that the issue covered in this book is critical for anyone who is interested in the subject of people's relationships in critical situations, for anyone who wants to know more about human psychology.

This book is telling about young man, who called Paul. He is a simple teenager, who went to war for advantages, challenges and experience, but world isn't kingdom of dreams. The world is dangerous place. When government deal with each other simple guys are dying every minute. All Paul's friends died and he wants to revenge. After all challenges and advantages the main character didn't find himself in peaceful life. The war ended, but people, who fight at war couldn't return from it. In the end of book ~~Paul~~ Paul died in his house alone.

In my opinion the filmmaker will have problem to show how the main hero is changing. That's the main issue and problems in "All quiet in West front".

From the ending I want to say that it is the one of greatest book in human's story. It is crucial. The author of his book told about his story at war by this book. He saw all terrible by himself. Once he said that all choices have consequences.

I'm really waiting to see film about this book with good actors' cast.
