Museums to Change or not to change? Many people argue about it. But what is the museum for us? As for me, museum is a good opportunity to ^{WW}new something new. They can be different. For example, there are historical museums, art museums or science fiction and technology museums. /49

I visited many museums in my life and in most of them I was needed to pay. I think that museums ¹⁹⁰are history, culture and education and everyone should visit them. Thanks to museums we can learn something new. But the problem is the money. Why do we need to pay ¹⁰⁰for some new information and knowledges ^{gr}? I really like studying history and going to museums. And I think many people like doing the same things. In my mind children should visit any museums because they are young and this is an opportunity for them to learn something new. When I was young ¹⁵⁰, in a primary school I often used to go to museums with my classmates. It was a great experience for me but we always needed to pay for that. And it isn't very good. There are some discounts for students or children in some museums. My point of view is that all museums should have these discounts for they can be free for them. The administration of museums ^{gr}will be able ¹⁰⁰to "free days" on holidays for the visitors of museum.

It was only my point of view. Someone may not agree with it. But I think that museums should ¹⁰⁰be free. Although, this can be controlled only by a government of the country. 264.
