Some parents buy their children a large number of toys to play with. It's not a problem, also if parents have enough money. Many toys train imagination, senses or just chill. It helps to grow up. If children have a lot of toys they can choose best from them and play with them. ⁵³ This is a big advantage. But if you have a lot of toys you lost matter of them, this is disadvantage. When I was child I had a lot of toys, my favourite toy was Lego. I did build whatever I want - car, tanks, weapons and much other. I very ⁵⁰ loved play computer games too, and love them nowadays. The best toys for boys are radio control cars, Lego, toy guns, etc. As I know girls like playing with dolls like Barbie. I very loved toy guns, a lot of boys wanna be soldiers or police men. Very fun play with toy guns with your friends outside. On my opinion nowadays playing computer games more popular than playing with real toys. It's not a bad or good. As rule, buy computer is more cheaper than buying a lot of toys.
