Writing

This essay will be about my opinion that some parents buy their children a large number of toys to play with.

In my opinion if children have large number of toys it is ~~is~~ have pluses and minuses. I will start with pluses. Firstly, children can have a large number of toys but they should be usefull. For example the toys should be usefull for brain, imagination, phisica actions etc. Then children will grow up smart, clever, health etc. Secondly, by the time children grow up and toys become useless But they can be usefull in other things. For example in cooking garben etc. From toys can make life usefull things or they can give a little brothers ~~or~~ sisters. The turn of minuses are come Firstly, tidying room will be difficult because toys must be on theyself's places and they must be clean. When the large number of toys this work need to do a long time. Secondly, for keeping toys need a lot of shelves, tables etc. And they can cost expensive.
